Home: Milano (Italy)

ABOUT ME

Robotics and Mechatronics Engineering MSc student focused on Human–Robot Interaction (HRI), interactive system prototyping, and practical robotics experimentation. Experience connecting Unity ROS Arduini, building HRI prototypes, and developing user-centered interfaces. Passionate about colloborative behaviour, robot usability, and hands-on testing.

SKILLS

Design & Prototyping for Robotics Systems

Epson RC+ / OMRON TM-Flow / AutoCAD / SolidWorks / MSC Adams / Ultimaker Cura / LabVIEW / Raspberry Pi

Modeling & Computational Analysis

MatCAD / MATLAB / ANSYS / ABAQUS

Programming & Control Development

ROS Noetic / Linux / Arduino / Python / C++ / JAVA

Human–Robot & User Interface Development

Unity / VR (Meta Quest) / React / CSS / JavaScript / HTML

Data, Logic & Productivity Tools

ROOT / Git / LogicCircuit / VS Code / Microsoft Office

WORK EXPERIENCE

KASA Fondation Humanitaire Suisse – Yerevan, Armenia

City: Yerevan | **Country:** Armenia | **Website:** https://kasa.am/

Communication & Support Assistant

[Jun 2024 – Aug 2024]

Developed strong interpersonal and observational skills, and provided multilingual communication support in sensitive, user-focused environments.

Thermorex CJSC – Yerevan, Armenia

City: Yerevan | **Country:** Armenia | **Website:** https://thermorex.org/

Technical Intern – Robotics Testing & Sensor Evaluation

[Aug 2023 – Sep 2023]

- Conducted hardware testing for robotic temperature-control modules.
- Performed sensor checks, component inspection, and assisted with assembly.
- Spported early fault detection and quality insurance.

CERN – Geneva, Switzerland

City: Geneva | **Country:** Switzerland | **Website:** https://home.cern/

Research Trainee– Detector Testing (Atlas Detector)

[Jun 2023 – Aug 2023]

- Assited testing the first RPC-BIL prototype for ATLAS Muon Trigger upgrade for final design evaluationwith and electronics handling.
- Logged measurement data and generated ROOT plots for performance analysis.
- Completed a short research paper documenting experimental observations.

Jybird Communications – Yerevan, Armenia

City: Yerevan | **Country:** Armenia

Front-End Developer

[May 2021 – Jan 2022]

- Developed chat UI, notifications, and communication components for a hosptal task-management system.
- Handled API data flow by collaborating with back end to otpimize communication flows, state updates, and front-end performance improvements.

EDUCATION AND TRAINING

Master in Robotics and Mechatronics engineering

Politecnico Di Milano [Sep 2024 – Current]

City: Milano | **Country:** Italy | **Website:** https://www.polimi.it/en

Focus: Human–Robot Interaction (HRI), colloborative robotics, bio-inspired robotics, robot interfaces, fundementals of perception, and XR applications.
Key Projects: Unity ROS HRI prototype, Braccio ROS control, interactive interface design.

Bachelor in Robotics and Mechatronics engineering

National Polytechnic University of Armenia [Sep 2020 – Jun 2024]

Address: 105 Teryan St, 0817 Yerevan (Armenia) | **Website:** https://polytech.am/en/home/ | **Final grade:** 3.97/4.0 GPA | **Thesis:** Mechanical design and programming of a sign labguage educational continuous robot

Focused on robotic sensing, kinematics, embedded systems, and interactive motion programming.

High School Diploma

AGBU Schools

City: Naqqash | **Country:** Lebanon | **Website:** http://agbuschools.edu.lb

Completed Lebanese Baccalaureate program with emphasis on mathematics and physics. Served as an active member of school robotics and science clubs.

CERTIFICATIONS

[Foundation for Armenian Science & Technology in partnership with Calouste Gulbenkian Foundation, Jul 2024]
Certificate of Completion – Women Innovators (WIN) Programme Completed a 10-week capacity-building programme empowering women in innovation and technology. Developed leadership, communication, and entrepreneurial skills through workshops and mentorship focused on STEM-based innovation and sustainable business development.

Link: https://fast.foundation/en/program/7264

[Candle SRI, Feb 2024]
Certificate in Abaqus Simulation Completed professional training in finite element analysis using Abaqus, focusing on structural simulation, meshing techniques, and static/dynamic modeling for engineering applications.

Link: http://candle.am/

[American University of Science and Technology, Jul 2019]
Robotics Summer Camp Participated in an introductory robotics program covering fundamentals of programming, circuit design, and mechanical assembly through team-based projects.

Mode of learning: Project based

Link: https://www.aust.edu.lb/

LANGUAGE SKILLS

Mother tongue(s): Armenian

Other language(s): English - Fluent | Arabic - Fluent | French - Intermediate | Italian - Beginner

VOLUNTEERING

[Oct 2023]
Volunteer at World Central Kitchen with AGBU
Supported large-scale humanitarian operations for displaced Artsakh citizens, strengthening empathy and user-observation skills.

Link: https://wck.org/donate

[Mar 2023 – Apr 2023] Yerevan, Armenia
Team Delegate for Norway - Pan-Armenian Voluntary Union
Coordinated logistics and communication by acting as liaison and translatorfor 10+ international athletes, building strong cross-cultural communication and teamwork skills

[Jul 2022 – Sep 2022] Hankavan, Armenia
Camp Counselor at AGBU Nairi Camp
Developed STEM-based educational activities requiring empathy, communication, and behavioural awareness for children affected by the Artsakh conflict.

Link: https://donate.agbu.org/camp-nairi

[2017 – 2020] Beirut, Lebanon
Scouts leader at AGBU-AYA Antranik Sevan
Led and managed a team of 30+ scouts in community, leadership, and environmental projects, and supported skill-building activities over a multi-year period, gaining long-term experience in teamwork, developing leadership, planning, and coordination skills.

[Sep 2020 – Oct 2020] Yerevan, Armenia
Community Support & Outreach Volunteer at Kooyrigs
Assisted Kooyrigs in delivering emergency support to displaced families during the 44-day Artsakh war, including need assessment and essential resource coordination. Enhanced my communication skills and ability to make user-centred decisions under pressure.
